

Safran Federal Systems Earns Prestigious 2025 USA TODAY and Rochester Democrat and Chronicle Top Workplaces Awards

Rochester, NY, April 10th, 2025

Safran Federal Systems is thrilled to announce that it has been honored with the prestigious 2025 USA TODAY Top Workplaces award, along with recognition from the Rochester Top Workplaces program.

These awards celebrate organizations that have built exceptional, people-first cultures. Winners are selected for their commitment to fostering workplace environments where employee listening and engagement are truly valued. USA TODAY recognized the national award winners both online and during the National Awards Summit in Las Vegas, while the Rochester honorees were celebrated at a local awards ceremony.

“We are incredibly proud to be named one of the Top Workplaces in both the United States and Rochester by USA TODAY and the Rochester Democrat and Chronicle,” said Hironori Sasaki, President and CEO of Safran Federal Systems. “While it’s been an honor to consistently receive this recognition in the Rochester community over the past several years, this national distinction is a powerful reflection of the dedication and excellence of our entire team. It speaks to the supportive, inclusive, and innovative culture we’ve built—where every individual is empowered to grow and succeed. This achievement is both a celebration of our people and a reaffirmation of our commitment to fostering a workplace defined by collaboration and excellence.”

The winners are determined by authentic employee feedback captured through a confidential survey conducted by [Energage](#), the HR research and technology company behind the [Top Workplaces](#) program since 2006. The results are calculated based on employee responses to statements about Workplace Experience Themes, which are proven indicators of high performance.

"Earning a Top Workplaces award is a testament to an organization's credibility and commitment to a people-first culture," said Eric Rubino, CEO of Energage. "This award, driven by real employee feedback, is more than just a recognition — it's proof that your employees believe in the organization and its leadership. Job seekers and customers look for this trusted badge of credibility and excellence. It signals a company that values its people, and that kind of culture resonates in today's competitive market."

Safran Federal Systems is a trusted DoD mission partner providing cross-cutting Position, Navigation and Timing (PNT) solutions from the lab to the field. We leverage our industry leadership in Timing, Navigation, Simulation and NAVWAR to offer a unique blend of cost-effective A-PNT solutions bred through innovation. Our expertise in open systems architecture enables rapid delivery of emerging technologies to the warfighter across all domains.

Your Assured PNT Mission Partner, from the Lab to the Field.™

Safran Federal Systems is a proxy-regulated Safran Defense & Space, Inc. company.
